

# VVEC LINE LIFE

MARCH 2025 | PUBLISHED FOR THE MEMBERS OF VERDIGRIS VALLEY ELECTRIC COOPERATIVE | A SUPPLEMENT TO OKLAHOMA LIVING | WWW.VVEC.COM

## POWERING LIVES & EMPOWERING COMMUNITIES

**M**et Thomas Martinez, the Economic Development, Key Accounts & Legislative Liaison for Verdigris Valley Electric. Thomas is an advocate for cooperative legislation and you will likely see him in town, at Chamber meetings within our service area and even at the capitol!

Thomas began his career at VVEC in 2008 as an Apprentice Lineman and over time, progressed to Journeyman, Assistant Foreman, Construction Foreman and eventually moved to Right of Way Coordinator.

In his current role, he works to foster growth in local communities by supporting business development, build and maintain strategic partnerships with the cooperative's largest members and advocate for the cooperative's interests by shaping public policy to benefit our members in the legislative arena.

Verdigris Valley Electric is member driven, community focused and committed to partnering with our communities to better the world around us. As a local business, we are proud to power your lives.

# ADOPT-A-SCHOOL & RURAL FIRE GRANTS

Grant applications are being accepted until  
MARCH 14TH, 2025 AT 4:00 PM.

For over twenty years, Verdigris Valley Electric Cooperative has invited school and rural fire departments to apply for grants to aid in offsetting the costs of needed equipment, supplies and gear.

School representatives and fire department personnel may apply to receive funds from these grants and explain how the funds will be used. Once all applications have been reviewed, program personnel will decide how many requests the program can grant.

Applications and additional information may be found by visiting the Community Programs page on our website at [www.vvec.com](http://www.vvec.com).

RURAL FIRE

Additional information may be found by scanning the QR codes, going on our website at [www.vvec.com](http://www.vvec.com) or by contacting Misti Frazier at 918-371-2584 / [mfrazier@vvec.com](mailto:mfrazier@vvec.com).

ADOPT-A-SCHOOL

Is your account number 1521501004? If so, call Megan Jackson at 918-586-6241 during the month of March and claim your \$50 bill credit! CONGRATS!

## AGENCIES PROVIDE EMERGENCY ASSISTANCE WITH UTILITY BILLS

There are a number of government agencies and charitable and religious organizations that offer assistance with utility bills; some of them are listed here.

If you realize you may have difficulty paying your electric bill, please contact our consumer service representatives as soon as possible. We will make every effort to work with you to make payment arrangements and hopefully avoid interruption to your electric service.

ORGANIZATION	SERVES	PHONE NUMBER

# EMPLOYEE SPOTLIGHT

## KELLY BRANEN

The March spotlight has landed on Kelly Branen, a nearly two year employee. Kelly has worked as an Office Services Representative and is also one of the friendly faces you see at the front counter!

Kelly is married to her husband, Steve, and together they have three beautiful daughters. Outside of work, she enjoys spending time with family and doing fun activities with her friends. She's also an excellent baker!

Kelly and Steve spent a lot of time at livestock shows with their daughters but now that they are grown, she looks forward to livestock shows with grand-babies -- her first grandchild is due in July!

Congratulations on a job very well done, Kelly!

*"The #1 thing I love the most about VVEC is that everybody is so friendly. It's a very relaxed atmosphere here and I love it."*

**March Mystery Picture!** Do you know where this is? Be the first to correctly guess the location during the month of March and receive a \$50 bill credit! Call Megan Jackson at 918-586-6241 to submit your guess!

February's Location correctly guessed by Paula - Bethel Chapel Church; 28A - South 4220 Rd

- 03.09 Daylight Savings Time begins
- 03.12 National Plant a Flower Day
- 03.17 St. Patrick's Day
- 03.20 First Day of Spring
- 03.30 Take a Walk in the Park Day

## Utility scams in this age of AI: How to spot and avoid fraud

Someone calls claiming to be from your utility company. They say your service will be cut off if you don't pay them immediately. Real utility companies don't do this. But scammers want to scare you into paying before you have time to confirm what they're telling you. And scammers are now using Artificial Intelligence (AI) to craft frauds that are difficult for consumers to detect. Learn how to protect yourself.

### BEWARE OF THESE COMMON SCAM TACTICS

- Disconnection threats: Scammers claim your service will be cut off without immediate payment.
- Caller ID spoofing: Fraudsters use software to make their calls appear legitimate.
- Overpayment claims: They may say you've overpaid and ask for personal or banking information to issue a refund.
- Smishing: Scammers send fake text messages that seem to come from your utility company.
- Phishing attempts: Beware of emails that look like bills; always verify the sender's email before clicking links.

If you have any doubt about the status of your electric service, call your utility company using the customer service phone number on their website.

### WATCH FOR THE FOLLOWING RED FLAGS

- High-pressure tactics that demand urgent action.
- Unusual payment method requests (wire transfer, gift cards, reloadable cards or cryptocurrency).
- Poor grammar, misspellings and suspicious email addresses.

**Do not provide any information or agree to immediate payment; instead hang up and check with your utility by using the phone number listed on your power bill.**

### AI USE ENHANCES UTILITY SCAMS

By leveraging AI-powered techniques, utility scammers can create sophisticated and convincing frauds that are hard for consumers to recognize and avoid.

- AI helps scammers craft convincing emails that appear to be from legitimate utility companies and include the use of company colors and logos.
- Scammers use AI to create realistic-looking utility company websites that are nearly indistinguishable from legitimate ones.
- AI technology can clone the voices of utility company representatives, making phone scams convincing.
- AI analyzes victims' online presence and social media to create highly personalized spam related to your utility services.
- Scammers create geographically targeted online ads that appear when users search for keywords related to their energy bills.
- Scammers use AI to launch large-scale utility scam campaigns quickly and efficiently.

According to Kathy Stokes, AARP Director of Fraud Prevention Programs, "the ability of AI to improve and scale scam tactics is the equivalent of the Industrial Revolution for fraud criminals."

### PROTECT YOURSELF

- Take your time: Don't rush into payments or action.
- Verify any communication by calling your utility company directly using the number on your bill.
- Never share personal information. Legitimate companies won't ask for sensitive details over the phone.
- If someone claims to be a utility worker, request official identification.

If you suspect a scam, report it to your utility company and the FTC at [ReportFraud.ftc.gov](https://www.ftc.gov/ReportFraud).

Remember, legitimate utilities will provide multiple notices before disconnection and will not pressure you for immediate payment. If you are in doubt, let your utility company know so they can take proactive measures to both protect you and others from becoming victims.

For more information about electrical safety, visit [safeelectricity.org](https://www.safeelectricity.org).

## Daylight Savings Time Begins March 9, 2025

It's time to reset your clocks and check your smoke and carbon monoxide alarms!

40% of house fires happen in homes without working smoke detectors

25% of the home fire deaths result from missing or dead batteries

Home fire death rate is 50% higher in homes without working smoke detectors

## SECURE EQUIPMENT

Stay safe! Ensure that all outside equipment is secured before a storm approaches.

Safe Electricity.org®

## UNRULY TREES AND POWER LINES: WE'RE ON IT

We love trees. They beautify our landscape, provide shade and are an essential part of nature. When you see us out trimming trees, know that we are doing so to keep you safe and prevent service issues.

Although most trees do not present a problem, some of them grow into or crowd power lines or other utility equipment. When greenery becomes too close for comfort, we have to address it because overgrowth can interfere with power distribution and create a fire hazard.

Power lines can give off a spark or arc that may land on a nearby branch and ignite. Additionally, the lights in your house may flicker when tree branches brush power lines during high winds. Stormy weather can also cause limbs to break off and land on lines.

In fact, the majority of power outages are caused by tree-related issues. It is our job to ensure trees, branches and limbs are a safe distance from power lines.

## WHY

### WE TRIM TREES

The majority of power outages are caused by tree-related issues. It is our job to ensure trees, branches and limbs are a safe distance from power lines to avoid fire hazards and power interruptions.

Safe Electricity.org®

Clear power lines make it easier and safer for lineworkers to access lines and fix problems that may occur. When clearing around lines, we make sure proper pruning techniques are used to preserve tree health as much as possible. Pruning is the first line of defense against unruly trees, although sometimes a tree must be removed. This is a last resort for certain scenarios: when a fast-growing tree is located directly under a power line or for trees that are leaning, in decline, or cracked or split.

When hiring someone to trim trees on your property, know that most tree-care workers are not qualified to work around energized power lines. By law, only OSHA-certified utility line clearance workers are allowed to work on trees or branches within 10 feet of a power line.

Tree crews are working to clear right-of-way on the Keetonville and Tallant substations. Contact Chub Brewer at 918-586-6208 with questions about trees around power lines.

## VVEC IS LOOKING FOR LOST MEMBERS – CURRENT ADDRESSES NEEDED

From time to time members move out of VVEC's service territory or pass away but Capital Credits still have to be allocated for the energy used while members had active service. Sometimes VVEC's last known address is not correct and the capital credit checks that are sent out come back to the cooperative. We need your help to find these former members. If you see a name on the list that you recognize and you have information about a current address, please contact us at 918-371-2584.

### WINTER RESIDENTIAL RATES

October through March usage;  
November through April billing

**Customer Charge | \$40.00**  
**Energy Charge | \$.08279/kwh**

A power cost adjustment (PCA) will be applied to all bills when the actual cost of power purchased exceeds or is less than 62.088 mills per kwh.

In addition, a gross receipts tax of 2% of revenue will be included, plus additional taxes, if applicable.

### IN CASE OF AN OUTAGE

•First, check your fuses or circuit breakers. Every service is different. You may have fuses or circuit breakers in your house, on the side of your house, under your meter, or all three places. Check to see if your neighbors have electricity.

•Then, call the co-op at 371-2584 or 1-800-870-5948. Have your account number, name as it appears on the account, and address handy to give to the dispatcher. If you should get a recording, leave your information; every message will be answered.

•Download the SmartHub app at [www.smarthubapp.com](http://www.smarthubapp.com) to report outages from your smartphone.
